

WRIGHT AT HOME

Frank Lloyd Wright designed incredible art glass windows for his buildings inspired by geometry and nature. Experiment with color, geometry and patterns as you create your own Art Glass Sidewalk.

- Look up examples of Frank Lloyd Wright's windows online for inspiration.
- Use masking tape or painter's tape to mark out a pattern of shapes on your sidewalk.
- Color in the shapes with different chalk colors.
- Peel away the tape to reveal your finished design!

Experiment! Leave some shapes blank to create interesting contrast.
